AVAN'S LIGHTWEIGHT CONSTRUCTION DRIVES YOUR DOLLAR FURTHER

The A'van Advantage

- * Less maintenance !
- * Easy to clean !
- * Greater dent resistance !
- * Greater impact resistance !
- * Higher insulation properties !

Super-Strength Smooth Panel Construction

A'van has more experience than any other Australian RV manufacturer in bonded panel construction. Our unique insulated sandwich panel side walls with ply re-inforced aluminium outer skin, built for a long life 'A' class finish and increased dent resistance.

Our trademark sleek lines and smooth finish have moved other manufacturers to follow our lead!

Our construction process incorporates 25mm styrene foam insulation, 2 x layers ply and your choice of smooth prepainted aluminium or fibreglass outer panels.

The Choice is yours !

The smooth pre-painted aluminium outer panels possess unique benefits over fibreglass, including its superior strength, weight per square metre, surface appearance, UV-resistance, low dirt-retention and ageing resistance.

Leading-Edge Construction

Avan incorporates it's own **Leading-Edge construction**

process to the interior furniture in all its vans.

The enduring style of timber construction is enhanced by state of the art edge-banding technology producing a most sophisticated and appealing living environment. Fine craftsmanship and superior technology ensures the A-Grade finish expected with Avan while versatile day/night configuration allows you to enjoy greater comfort in your home on wheels.

Centurion Chassis

Unique to A'van the **Centurion Chassis** offers superior support than all others.

Hot dipped galvanized steel ensures that your A'van will remain protected from corrosive elements that can fatigue other types of chassis without maintenance. Intelligent engineering design maximizes strength and resistance to torsion and compression via pressed hole cross-members, and allows better protection to electrical wiring running underneath your van. For your long-term peace of mind, choose the A'van **Centurion Chassis**.

Avan...Gold Medal Excellence

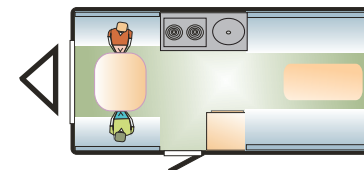

Avan is Australia's Number 1 most popular choice of "non-canvas" camper. Our unique engineering design enables full assembly within just 30 seconds. Best of all, our 100% insulated solid wall construction means *no canvas!*

Our *Super-Strength Smooth Panel Construction*, fully insulated interior and tinted windows provide greater comfort and security than any other folding camper. Built on our tough *Centurion Chassis*, the Sportliner, Aliner and Cruiseline/Cruiser models are versatile enough to take you around the country or just out of town.

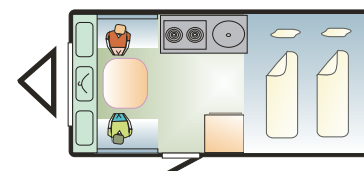

Clever interior designs can accommodate a family in comfort, while our standard features include 90 Litre fridge, cooktop, deep bowl sink, *Leading-Edge construction* furniture and ample storage for your trips away.

The A'van Weekender has given a new style to camping for many Australians. Fully insulated with a large 190cm x 130cm double bed, the Weekender is perfect for a quick getaway.

Along with its sleek lines and smooth A-Grade finish, this compact little unit is light enough to be towed behind anything on four wheels! Generous under-bed storage and additional rear compartment access allow the trappings of home life to come too.

Tough and always ready to go, the Weekender also has a large custom-built annexe extension option
