The 2011 A'van Euro Star range combines the finest aspects of interior comfort with distinctive modern exterior design. Superb moulded fibreglass front & rear panels, featuring premium quality Gelcoat protection, give further style to the most comprehensively appointed caravan in Australia. The Euro Star's extensive list of standard features explains its reputation for offering greater value than any other RV in its class. We also offer single bed and club lounge layouts. Your dealer can provide further information.

* Specifications may vary due to changes in production methods or materials.

A'van... Others Follow !

The A'van Advantage
Less Maintenance !
Easy to clean !
Greater impact resistance !
Superior dent resistance !
Higher Insulation Properties !

AUSTRALIAN INNOVATION, EUROPEAN STYLING

Centurion Chassis

Unique to A'van the **Centurion Chassis** offers superior support when compared with all others. Hot dipped galvanized steel ensures that your A'van will remain protected from corrosive elements that can fatigue other types of chassis without maintenance. Intelligent engineering design maximizes strength and resistance to torsion and compression via pressed hole cross-members, and allows better protection to electrical wiring running underneath your van. For your long-term peace of mind, choose the A'van **Centurion Chassis**.

Leading-Edge Construction

A'van incorporates its own **Leading-Edge Construction** process to the interior furniture of its vans. The enduring style of timber construction is enhanced by state of the art edging technology, producing the most sophisticated and appealing living environment. Fine craftsmanship and superior technology ensures the A-Grade finish expected with A'van, while versatile day/night configuration allows you to enjoy greater comfort in your home on wheels.

Super-Strength Smooth Panel Construction

A'van has more experience than any other Australian RV manufacturer in sandwich panel wall construction. For more than 15 years, A'van has applied panel bonding methods to all of its vans. A'van's unique Super-Strength Smooth Panel Construction combines superior strength, insulation and exterior finish while our ply-reinforced aluminium outer skin ensures superior dent resistance.

Augmented Power Supply

Every A'van Poptop/Hardtop caravan features the most advanced electrical system giving maximum utility, wherever your adventures take you. Our top of the range AC Delco 95 Amp/hour battery pack and 18 Amp charger & power supply, including battery level indicator and water level indicator, give you peace of mind and confidence.
